## Corona virus

For our patients, we have a supply of respiratory masks in the practice, which we would be happy to hand over to you for your protection.

We organize the corona smear for you.

You can reach us personally in practice and by phone 05592 444 and 017175302124 also via whatsApp and FaceTime.

The doctor's office and the practice for physiotherapy are normally open for you.

If you have a high fever and cough AND have been in contact with a COVID-19 infected AND / OR in an infection area, please do not come to the practice under any circumstances, but contact us by phone so that a smear can be arranged.

If you have signs of a flu-like infection with a cough and fever, please do not come to the office unannounced. Please call or ring the doorbell.
